DEPOSITORY OF FUNDS

Each year at its annual meeting, the board will designate by resolution the name and location of the Iowa located financial depository institution or institutions to serve as the official school district depository or depositories. The board will also designate the maximum amount which may be kept on deposit in each bank. This amount will be designated the first time a new depository is identified, and will be reviewed at least once every *[five]* years or when an increase or additional depository is needed. The amount stated in the resolution must be for all depositories and include all of the school district's funds.

It is the responsibility of the board secretary to include the resolution in the minutes of the meeting.

Note: While this policy is not mandatory, the content of it is. The requirement to review the amount designated is not a legal requirement, but is a best practice. Districts have flexibility in determining how frequently to review this.

TRANSFER OF FUNDS

When the necessity for a fund has ceased to exist, the balance may be transferred to another fund or account by board resolution. School district monies received without a designated purpose may be transferred in this manner. School district monies received for a specific purpose or upon vote of the people may only be transferred, by board resolution when the purpose for which the monies were received has been completed. Voter approval is required to transfer monies to the general fund from the capital projects fund and debt service fund.

If all requirements for district use of funds under the Preschool Foundation Aid, Professional Development Supplement, Home School Assistance Program, Teacher Leadership Supplement or any discontinued fund have been met and funds remain unexpended and unobligated at the end of the fiscal year, the district may transfer all or a portion of remaining funds by passage of a board resolution into the district's flexibility account in accordance with law. Before the expenditure of amounts in the flexibility account, the district shall publish notice of the time, date, and place of a public hearing on the proposed resolution approving said expenditures. The board must find and certify that the statutory requirements of each original source of funds have been met before adopting the resolution approving the expenditures. The district will present a copy of the signed board resolution to the Department of Education.

The District may transfer by board resolution from the general fund to the student activity fund an amount needed to purchase or refurbish protective and safety equipment required for any extracurricular interscholastic athletic contest or competition sponsored or administered by the Iowa High School Athletic Association or Iowa Girls High School Athletic Union.

If the before and after school program exceeds the amount necessary to operate the program, the excess amount may, following a public hearing, be transferred by resolution of the board of directors of the school corporation for deposit in the general fund of the school corporation to be used for school district general fund purposes. The district will present a copy of the signed board resolution to the Department of Education.

Beginning in FY 2024, unexpended and unobligated dollars that remain at the end of a fiscal year in addition to ongoing revenues may be transferred to the Teacher Salary Supplement (TSS) program from Professional Development Supplement (PDS), Talented and Gifted (TAG), and Teacher Leadership Supplement (TLS) without board action.

The district may choose to request approval from the School Budget Review Committee to transfer funds to make a program whole, prior to its elimination.

Temporary transfers (loans) of funds are permitted between funds but must be repaid to the originating fund, with interest, by Oct. 1 following the end of the fiscal year.

It is the responsibility of the board secretary to make recommendations to the board regarding transfers and to provide the documentation justifying the transfer.

The board may establish other funds in accordance with generally accepted accounting principles and may certify other taxes to be levied for the funds as provided by state law. The status of each fund must be included in the annual report.

It is the responsibility of the superintendent in conjunction with the school business official to implement this policy and bring necessary changes in the maintenance of the school district's financial records to the attention of the board.

GOVERNMENTAL ACCOUNTING PRACTICES AND REGULATIONS

School district accounting practices will follow state and federal laws and regulations, generally accepted accounting principles (GAAP) and the uniform financial accounting system provided by the Iowa Department of Education. As advised by the school district's auditor, determination of liabilities and assets, prioritization of expenditures of governmental funds and provisions for accounting disclosures shall be made in accordance with governmental accounting standards.

In Governmental Accounting Standards Board (GASB) Statement No. 54, the board identifies the order of spending unrestricted resources applying the highest level of classification of fund balance - restricted, committed, assigned, and unassigned - while honoring constraints on the specific purposes for which amounts in those fund balances can be spent. A formal board action is required to establish, modify and or rescind a committed fund balance. The resolution will state the exact dollar amount. In the event the board chooses to make changes or rescind the committed fund balance, formal board action is required.

The Board authorizes the superintendent and/or board secretary to assign amounts to a specific purpose in compliance with GASB 54. An 'assigned fund balance' should also be reported in the order of spending unrestricted resources, but is not restricted or committed.

Fund Balance Reporting

Financial reporting for the balances in the District's governmental funds is based on Governmental Accounting Standards Board (GASB) Statement 54, Fund Balance Reporting and Governmental Fund Types Definitions. Fund balance refers to the difference between assets and liabilities in the governmental funds balance sheets. GASB 54 established a hierarchy that is based on "the extent to which the government is bound to honor constraints on the specific purpose for which the amounts in those funds can be spent."

The governmental funds can have up to five fund balance classifications. The classifications are defined below from most to least restrictive.

Nonspendable Fund Balance includes amounts that cannot be spent because they are either not in spendable form, or legally or contractually required to be maintained intact. This includes items not expected to be converted to cash, including inventories and prepaid expenses. It may also include other property acquired for resale and the principal of a permanent fund.

Restricted Fund Balance should be reported when constraints placed on the use of resources are either externally imposed by creditors, grantors, contributors, or law or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation. This includes "categorical balances."

Committed Fund Balance reflects specific purposes pursuant to constraints imposed by formal action of the board. Such constraints can only be removed or changed by board action.

Assigned Fund Balance reflects amounts that are constrained by the government's intent to be used for specific purposes but meet neither the restricted nor committed forms of constraint. Unless the amount is negative, the assigned fund balance is the residual classification for the governmental funds other than the general fund. If the amount is negative, then the residual amount is shown as unassigned.

Unassigned Fund Balance is the residual classification for the general fund only. As noted above, if a negative residual amount exists in other governmental funds then the amount is reported as unassigned.

GOVERNMENTAL ACCOUNTING PRACTICES AND REGULATIONS

It is the responsibility of the superintendent to develop administrative regulations implementing this policy. It is also the responsibility of the superintendent to make recommendations to the board regarding fund balance designations.

Note: This policy is an optional policy. Should the board not adopt a policy implementing GASB54, the default is to reduce – committed, assigned and unassigned fund balances – in that order. Adoption of a policy gives boards the ability to have greater control over their fund balances.

FISCAL MANAGEMENT

The Board recognizes its fiduciary responsibility to oversee the management of school district funds in keeping with the school district vision, mission and goals. To achieve this purpose, the board may engage in learning about the financial needs, operations and requirements of the district as appropriate for the board's understanding of the district's financial position. The Board also commits to engaging in annual financial goal setting for the district based upon measurable data and projections for the district.

After the fiscal year has closed, the Superintendent or their designee will provide to the Board concise, timely, well organized financial data. The Board will exercise its oversight responsibilities by reviewing relevant PK-12 public education sector indicators to understand the financial trends of the district.

The board will establish and review financial goals annually. The District will measure whether these goals were obtained as of June 30, but only after completion of the Certified Annual Report due September 15th each year.

Providing the best possible educational experience for all students and meeting federal, state, and local academic goals for each student requires maximizing General Fund resources for use in the instructional program. The board may request from the School Budget Review Committee (SBRC) additional modified spending authority (MSA) where it may be available for items such as:

- Special education deficit balances
- Advances to support increasing student enrollment
- Supports for students identified as English Learners
- At risk / dropout prevention programming
- Initial staffing associated with opening new buildings or programs
- Any other lawful purpose

Any award of modified supplement amount will be levied as a cash reserve based on the recommendation of the superintendent/designee and approved by the Board of Education in keeping with the fiscal management performance measures provided for in district policy.

NOTE: Districts should include any optional uses of MSA the district uses in the bulleted list.

FINANCIAL METRICS

The following relevant PK-12 public sector indicators will be provided to the Board annually to better understand the financial trends of the district. These indicators will be an accurate depiction as of June 30th of the preceding fiscal year and will depict at a minimum of three (3) years of data.

- Total revenues and expenditures by fund and major sources;
- Financial Solvency Ratio - assigned plus unassigned fund balances divided by total revenue minus AEA flow through;
- Unspent Authorized Budget Ratio - amount of maximum spending authority left at year end after deducting the general fund expenditures incurred during the year;
- Unspent Authorized Balance Ratio Net of Restricted Fund Balances (Categorical Fund Balances) - amount of maximum spending authority left at year end after deducting both the general fund expenditures incurred during the year and the total restricted fund balances (categorical fund balances) at year end;
- Enrollment Trend - funding follows the student so it is important to understand district enrollment numbers;
- Staff costs as a percent of total general fund.

Financial Projections

Five-Year financial projections of the general fund will be prepared and updated annually. The general fund is the operating fund of the district where the majority of salaries and benefits are funded. Projections will help the board determine sustainability of the annual operating budget and help make future budgetary decisions.

The District is committed to utilizing the following financial metrics in determining district financial goals:

1. **Unspent Authorized Budget Ratio:** Maintain unspent authorized budget ratio within the 5-15% target range. The current year's projected balance will be discussed with the Board before staffing and other spending decisions are finalized for the succeeding year.
2. **Unspent Authorized Budget Net of Restricted Fund Balances (Categorical Balances):** Maintain unspent authorized budget ratio net of restricted fund balances (categorical balances) within the 2-5 % target range. The district will attempt to spend the restricted (categorical) annual allocation in the year received to the extent possible.
3. **Solvency Ratio:** Maintain an unrestricted, uncommitted general fund balance within the 7-17 % target range with 5 % being a minimum goal. The current year's projected balance will be discussed with the Board before establishing the succeeding year's cash reserve levy and before staffing and other spending decisions are finalized.
4. *[Optional: The District will take reasonable steps to achieve a total general fund balance at least equal to its unspent authority. This enables the District to cash flow its legal spending limit].*

CASH IN SCHOOL BUILDINGS

The amount of cash that may be kept in the school building for any one day shall be sufficient for that day's operations. Funds raised by students shall be kept in the building offices.

A minimal amount of cash shall be kept in the central administration office at the close of the day. Excess cash shall be deposited in the authorized depository of the school district.

It shall be the responsibility of the superintendent to determine the amount of cash necessary for each day's operations and to comply with this policy.

The hearing on the Proposed Property Tax must be a unique and separate meeting and be the only item on the agenda.

Prior to the adoption of the proposed budget by the board, the public is apprised of the proposed budget for the school district. Prior to the adoption of the proposed budget by the board, members of the school district community will have an opportunity to review and comment on the proposed budget. A public hearing for the proposed budget of the board is held each year in sufficient time to file the adopted budget no later than April 30.

Official Statements

Section 2.01. Review and Approval of Official Statements. Whenever the District issues Securities, an Official Statement may be prepared. Each of these Official Statements contains information relating to the District's finances. The Compliance Officer (with advice from Bond Counsel, any retained Disclosure Counsel, and/or Financial Advisor) shall have primary responsibility for ensuring that all such information is accurate and not misleading in any material aspect. The Official Statement may also include a certification that the information contained in the Official Statement regarding the District, as of the date of each Official Statement, does not contain any untrue statement of material fact or omit to state any material fact necessary to make the information contained in the Official Statement, in light of the circumstances under which it was provided, not misleading. Article III

Annual Report Filings

Section 3.01. Overview. Under the Disclosure Agreements the District has entered into in connection with certain of its Securities, the District is required each year to file Annual Reports with the EMMA system. Such Annual Reports are generally required to include: (1)

certain updated financial and operating information as outlined in each Disclosure Agreement, and (2) the District's audited financial statements. The documents, reports and notices required to be submitted to the MSRB pursuant to this Policy shall be submitted through EMMA in one or more electronic document format files as required by the Rule at the time of filing, and shall be accompanied by identifying information, in the manner prescribed by the MSRB, or in such other manner as is consistent with the Rule. - (D) comply with the District's obligation to file Annual Reports by submitting or causing the required (i) annual financial information and operating data and (ii) audited financial statements to be submitted to the MSRB through EMMA.
 - (i) In the event audited financial statements are not available by the filing deadline imposed by the Disclosure Agreement, the Compliance Officer shall instead timely submit or cause to be submitted unaudited financial statements, with a notice to the effect that the unaudited financial statements are being provided pending the completion of audited financial statements and that the audited financial statements will be submitted to EMMA when they have been prepared. In the event neither audited nor unaudited financial statements are timely posted, the District shall cause to be filed a "failure to file notice" in accordance with the Rule. The failure to file notice for audited financial statements shall include information describing the nature and/or cause of the failure to meet the contractual deadline and, if available, an approximate timeframe for when the completed audited financial statement is expected to be submitted. Audited financial statements shall be filed as soon as available. If updated financial and operating information is not posted by the filing deadline, the Compliance Officer shall cause a "failure to file notice" to be posted to EMMA in accordance with the Rule.

Employees shall be instructed to notify the Compliance Officer upon becoming aware of any of the Listed Events in the District’s Disclosure Agreements. The Compliance Officer may consult with Bond Counsel, retained Disclosure Counsel, if any, or the Financial Advisor, to determine if an occurrence is a Listed Event, and whether a filing is required or is otherwise desirable. If such a filing is deemed necessary, the Compliance Officer shall cause a notice of the Listed Event (a “Listed Event Notice”) that complies with the Rule to be prepared, and the Compliance Officer shall cause to be filed the Listed Event Notice as required by the Rule as follows:

(B) The Compliance Officer shall:

(i) monitor and periodically review the Listed Events identified on Exhibit A, in connection with the Disclosure Agreements identified on the chart in Exhibit B to determine whether any event has occurred that may require a filing with EMMA. To the extent Compliance Officer determines notice for an event is not required based on the event not achieving a level of materiality, Compliance Officer shall document the basis for the determination.

(ii) In a timely manner, not in excess of ten (10) business days after the occurrence of the Listed Event, file a Listed Event Notice for Securities to which the Listed Event applies.

(C) For Securities to which the Listed Event or Events are applicable, the Listed Event Notice shall be filed in a timely manner not in excess of ten (10) business days after the occurrence of the Listed Event.

(D) The Compliance Officer shall monitor Securities data on EMMA regarding rating agency reports for rated Securities and may subscribe to any available ratings agency alert service regarding the ratings of any Securities.

Article V

The Compliance Officer shall retain an electronic or paper file (“Transcript”) for each Annual Report the District completes. Each Transcript shall include final versions of documents submitted to the MSRB through EMMA, and any documentation related to determinations of materiality (or immateriality) of Listed Events. Training sessions may include meetings with Bond Counsel, retained Disclosure Counsel, if any, Dissemination Agent, if any, or Financial Advisor, and teleconferences, attendance at seminars or conferences where disclosure responsibilities are discussed, and/or recorded presentations. The Compliance Officer shall assist the Board of Directors, the Superintendent, and District's Attorneys in ensuring that such statements and information are accurate and not misleading in any material aspect. Employees shall, to the extent possible, coordinate statements or releases as outlined above with the Compliance Officer. Investment information published on the District's website shall include a cautionary statement referring investors to EMMA as the official repository for the District's Securities-related data.

JESUP COMMUNITY SCHOOL DISTRICT

ONLINE FUNDRAISING CAMPAIGNS – CROWDFUNDING

The Jesup Community School Board of Education believes online fundraising campaigns, including crowdfunding campaigns, may further the interests of the district. Any person or entity acting on behalf of the district and wishing to conduct an online fundraising campaign for the benefit of the district shall begin the process by seeking prior approval from the board or their designee. Money or items raised by an online fundraising campaign will be the property of the district only upon acceptance by the board, and will be used only in accordance with the terms for which they were given, as agreed to by the board.

Approval of requests shall depend on factors including, but not limited to:

- Compatibility with the district's educational program, mission, vision, core values, and beliefs;
- Congruence with the district and school goals that positively impact student performance;
- The district's instructional priorities;
- The manner in which donations are collected and distributed by the crowdfunding platform;
- Equity in funding; and
- Other factors deemed relevant or appropriate by the district.

If approved, the requester shall be responsible for preparing all materials and information related to the online fundraising campaign and keeping district administration apprised of the status of the campaign.

The requestor is responsible for compliance with all state and federal laws and other relevant district policies and procedures. All items and money generated are subject to the same controls and regulations as other district property and shall be deposited or inventoried accordingly. No money raised or items purchased shall be distributed to individual employees.

NOTE: Online fundraising campaigns have become an increasingly popular mechanism for individual educators to raise money. "Crowdfunding" can be defined as, the use of small amounts of capital from a large number of individuals to finance a project, business venture, or to fundraise for a specific cause or charity. For examples of organizations dedicated to crowdfunding for education please visit:

- ***[DonorsChoose.org](https://donorschoose.org/), an organization with a mission to empower "public school teachers from across the country to request much-needed materials and experiences for their students."***
- ***[AdoptAClassroom.org](https://adoptaclassroom.org/), an organization with a mission to give "teachers a hand by providing needed classroom materials so that students can succeed."***

NOTE: As districts determine the appropriate approval process, consider other issues that may need to be approved in addition to the project itself. For example, does the administrator approve the text of the entry that will appear online or photographs of the classroom and students?

PURCHASING - BIDDING

The board supports economic development in Iowa, particularly in the school district community. As permitted by law, purchasing preference will be given to Iowa goods and services from locally-owned businesses located within the school district or Iowa based companies if the cost and other considerations are relatively equal and meet the required specifications. However, when spending federal Child Nutrition Funds, geographical preference is allowed only for unprocessed agricultural food items as a part of response evaluation. Other statutory purchasing preferences will be applied as provided by law, including goals and reporting with regard to procurement from certified targeted small businesses, minority-owned businesses, and female owned businesses.

Goods and Services

The board shall enter into goods and services contract(s) as the board deems to be in the best interest of the school district. It shall be the responsibility of the superintendent to approve purchases, except those requiring board approval or as provided by in law. The superintendent may coordinate and combine purchases with other governmental bodies to take advantage of volume price breaks. Joint purchases with other political subdivisions will be considered in the purchase of equipment, accessories, or attachments with an estimated cost of \$50,000 or more.

Purchases for goods and services shall conform to the following:

- The superintendent shall have the authority to authorize purchases without prior board approval and without competitive request for proposals, quotations, or bids for goods and services up to \$5,000
- For goods and services costing at least \$5,000 and up to \$50,000, the superintendent shall receive proposals, quotations, or bids for the goods and services to be purchased prior to board approval. The quotation process may be informal, and include written or unwritten quotations.
- For goods and services exceeding, \$50,000, the competitive request for proposal (RFP) or competitive bid process shall be used and received prior to board approval. RFPs and bids are formal, written submissions via sealed process.

In the event that only one quotation or bid is submitted, the board may proceed if the quotation or bid meets the contract award specifications.

The contract award shall be based on the total cost considerations including, but not limited to the following:

- The cost of the goods and services being purchased;
- Availability of service and/or repair;
- The targeted small business procurement goal and other statutory purchasing preferences; and
- Other factors deemed relevant by the board.

The thresholds and procedures related to purchases of goods and services do not apply to public improvement projects.

Public Improvements

The board shall enter into public improvement contract(s) as the board deems to be in the best interest of the school district. 'Public improvement' means "a building or construction work which is constructed under the control of a governmental entity and is paid for in whole or in part with funds of the governmental entity, including a building or improvement constructed or operated jointly with any public or private agency."

The district shall follow all requirements, timelines, and processes detailed in Iowa law related to public improvement projects. The thresholds regarding when competitive bidding or competitive quotations is required will be followed. Competitive bidding is required for public improvement contracts exceeding the minimum threshold stated in law. Competitive quotations are required for public improvement projects that exceed the minimum threshold amount stated in law, but do not exceed the minimum set for competitive bidding. The board shall approve competitive bids and competitive quotes. If the total cost of the public improvement does not warrant either competitive bidding or competitive quotations, the district may nevertheless proceed with either of these processes, if it so chooses.

The award of all contracts for the public improvement shall be awarded to the lowest responsive, responsible bidder. In the event of an emergency requiring repairs to a school district facility that exceed bidding and quotation thresholds, please refer to policy 802.3.

The district shall comply with all federal and state laws and regulations required for procurement, including the selection and evaluation of contractors. The superintendent or designee is responsible for developing an administrative process to implement this policy, including, but not limited to, procedures related to suspension and debarment for transactions subject to those requirements.

NOTE: While Iowa law dictates threshold amounts for quotes and bids for public improvement projects, there is no such requirement for goods and services. The district has discretion in this area to set the amounts required for the purchasing process.

NOTE: Districts should compare the discretionary purchasing limits in the section regarding goods and services with purchasing limits set in other policies (e.g., expenditures) to ensure consistency.

PROCEDURE**

In connection with transactions subject to federal suspension and debarment requirements, the district is generally prohibited from entering into transactions with parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in federal assistance programs or activities.

When soliciting bids or otherwise preparing to enter into such a transaction, the superintendent or designee shall use at least one of the following verification methods to ensure that any parties to the transaction are not suspended or debarred prior to committing to any sub-award, purchase, or contract:

- (1) Obtaining a certification of a party's compliance with the federal suspension and debarment requirements in connection with any application, bid, or proposal;
- (2) Requiring compliance with the federal suspension and debarment requirements as an express condition of any sub-award, purchase, or contract in question; or

USING FEDERAL FUNDS IN PROCUREMENT CONTRACTS

In addition to the District's standard procurement and purchasing procedures, the following procedures for vendors/contractors paid with federal funds are required. When federal, state, and local requirements conflict, the most stringent requirement will be followed.

2 CFR Part 200, Subpart D Subsection §200.318 (c)(1)

No District employee, officer, or agent may participate in the selection, award and administration of contracts supported by a Federal award if he or she has a real or apparent conflict of interest. Such a conflict of interest would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract. District officers, employees, and agents may neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, for situations where the financial interest is not substantial or the gift is an unsolicited item of nominal value, district employees must abide by all relevant board policies. Violation of this requirement may result in disciplinary action for the District employee, officer, or agent.

2 CFR Part 200, Subpart D Subsection §200.320 (e)(1-4)

Procurement for contracts paid with federal funds may be conducted by noncompetitive (single source) proposals when one or more of the following circumstances apply: (1) the item is only available from a single source; (2) public exigency or emergency will not permit the delay resulting from competitive bids; (3) the Federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the non-Federal entity; or (4) after solicitation of a number of sources, competition is inadequate.

2 CFR Part 200, Subpart D Subsection §200.321

The District will take all necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible. Affirmative steps must include: (1) placing such businesses on solicitation lists; (2) soliciting such businesses whenever they are potential sources; (3) when economically feasible, dividing contracts into smaller tasks or quantities to allow participation from such businesses; (4) establishing delivery schedules that encourage participation by such businesses; (5) when appropriate, utilizing the Small Business Administration and the Minority Business Development Agency of the Department of Commerce; and (6) requiring the primary contractor to follow steps (1) through (5) when subcontractors are used.

The district will include the following provisions in all procurement contracts or purchase orders include the following provisions when applicable:

2 CFR Part 200 Appendix II

(A) Contracts for more than the simplified acquisition threshold currently set at \$150,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

(B) All contracts in excess of \$10,000 must address termination for cause and for convenience by the non-Federal entity including the manner by which it will be effected and the basis for settlement.

(C) Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of “federally assisted construction contract” in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, “Equal

Employment Opportunity” (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, “Amending Executive Order 11246 Relating to Equal Employment Opportunity,” and implementing regulations at 41 CFR part 60, “Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor.”

(D) Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of \$2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, “Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction”). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

(F) Rights to Inventions Made Under a Contract or Agreement. CREDIT AND PROCUREMENT CARDS

Employees may use school district credit cards and/or procurement cards (p-cards) for the actual and necessary expenses incurred in the performance of work-related duties. Actual and necessary expenses incurred in the performance of work-related duties include, but are not limited to travel expenses related to professional development or fulfillment of required job duties, fuel for school district transportation vehicles used for transporting students to and from school and for school-sponsored events, payment of claims related to professional development of the board and employees, and other expenses required by employees and the board in the performance of their duties.

Employees and officers using a school district credit or procurement card must submit a detailed, itemized receipt in addition to a credit or procurement card receipt indicating the date, purpose and nature of the expense for each claim item. Failure to provide a proper receipt will make the employee responsible for expenses incurred. Those expenses are reimbursed to the school district no later than ten working days following use of the school district's credit or procurement card. In exceptional circumstances, the superintendent or board may allow a claim without proper receipt. Written documentation explaining the exceptional circumstances is maintained as part of the school district's record of the claim.

The school district may maintain a school district credit or procurement card for actual and necessary expenses incurred by employees and officers in the performance of their duties. The superintendent may maintain a school district credit or procurement card for actual and necessary expenses incurred in the performance of the superintendent's duties. The transportation director may maintain a school district credit or procurement card for fueling school district transportation vehicles in accordance with board policy.

It is the responsibility of the superintendent to determine whether the school district credit or procurement card use is for appropriate school business. It is the responsibility of the board to determine through the audit and approval process of the board whether the school district credit or procurement card used by the superintendent and the board is for appropriate school business.

The superintendent is responsible for developing administrative regulations regarding actual and necessary expenses and use of a school district credit or procurement card. The administrative regulations will include the appropriate forms to be filed for obtaining a credit or procurement card.

NOTE: This is a mandatory policy. School districts that have credit cards must have a board policy. School districts that have only a gasoline credit card should amend this policy to reflect their practice.

JESUP COMMUNITY SCHOOL DISTRICT

EXPENDITURES FOR A PUBLIC PURPOSE

The board recognizes that school district funds are public funds, and as such, should be used to further a public purpose and the overall educational mission of the school community. The district is committed to managing and spending public funds in a transparent and responsible manner. Prior to making a purchase with public funds, an individual should be comfortable defending the purchase/reimbursement to the taxpayers in the district. If the individual is uncomfortable doing so, the purchase may not fulfill a public purpose and additional guidance should be sought before the purchase is made.

Individuals who have concerns about the public purpose of a purchase or reimbursement should utilize the district's Internal Controls policy and regulation as a resource for questioning a purchase. Concerns should be reported to the superintendent and/or the board president.

The superintendent shall develop a process for approving expenditures of public funds. The board will review expenditures and applicable reports as necessary to ensure proper oversight of the use of public funds. To the extent possible, expenditures shall be pre-approved by the district prior to expending the funds. Purchases of food and refreshments for district staff, even within district, should comply with the district's Employee Travel Compensation policy, and all other applicable policies. All purchases/reimbursements shall comply with applicable laws, board policies and district accounting requirements.

Additional guidance regarding appropriate expenditures of school funds is provided in the regulation accompanying this policy.

NOTE: All use of public funds should directly serve a public purpose in a clear and transparent manner. Districts should consider what purchasing and reimbursement flexibility is needed for their district and apply all restrictions equally.

USE OF PUBLIC FUNDS REGULATION

The following is a list of examples organized by activity for what is allowable, or not allowable as a purchase/reimbursement using public funds. This regulation is intended as guidance and there may be situations that are not listed here. Any questions regarding the appropriateness of an expenditure should be submitted to administration **prior** to expending funds.

Reimbursements to an Individual

- **Use of Credit/Procurement Card**: All purchases through a district-owned credit or procurement card shall be pre-approved and comply with the district's policy 401.10 – Credit and Procurement Cards.
- **Mileage**: Individual who are required to travel (other than to and from work) as part of fulfilling their job duties to the district shall be reimbursed for mileage costs in accordance with the requirements stated in the district's Employee Travel Compensation policy.
- **Travel accommodations**: Employees who are required to travel and stay overnight as part of fulfilling their job duties to the district shall be reimbursed for costs in accordance with the requirements stated in the district's Employee Travel Compensation policy.
- **Alcohol**: Alcohol is a personal expense and is never allowable for purchase or reimbursement using public funds.
- **Food/Refreshments**: Food and refreshments are typically a personal expense. Meetings spanning mealtimes should be avoided when possible. When a district meeting is required to take place spanning a customary mealtime, the superintendent or designee shall determine whether food and/or refreshments will be provided to employees whose presence is required during the meeting. The cost of food and refreshment for employees shall be reasonable, and when possible, a separate itemized receipt for each employee is required. If an itemized receipt is not available, approval is required by the school business official prior to reimbursement. In all cases, the names and number of employees shall be noted on the receipt.
- **Apparel/Personal Items**: Apparel and personal items including, but not limited to items such as t shirts, hats, mugs, etc. provide personal benefit to individuals and are a personal expense. These items shall not be purchased or reimbursed with public funds.
- **Gifts**: Gift cards or gifts given to individuals are personal expenses and public funds should not be used (except for recognition/staff retirement, listed below) for these purposes. Voluntary collections from staff would be an acceptable way of purchasing gifts.
- **Retirement and Recognition Gifts**: Recognizing an employee or volunteer's years of dedication to educating the community and commitment to the district serves a public purpose by honoring individuals with a token gift, or honorarium, in recognition of their service. The same is true for individual awards, mementos, or items purchased in recognition of employee service to the district. These purchases may use public funds, provided the expenditures are modest and approved by the superintendent.

- **Honoraria:** District employees may at times receive an honorarium from an outside source as compensation for the employee's time devoted to preparing and delivering a presentation within the scope of their professional field. Honorariums may only be accepted by employees when the employee has used their personal time outside of their work for the district to prepare and deliver the presentation. If the employee uses district time or resources to prepare or deliver a presentation, and honorarium shall be given to the district.

Supplies for Public Areas

- Limited refreshments such as water and coffee may be available in public reception areas of the district including, but not limited to the central office, the building administrator's office, etc. These refreshments may be purchased with the use of public funds, as they provide light refreshments for members of the community.

Staff Parties/Receptions

- Parties and receptions to benefit individual staff members are considered a personal expense and should not be purchased or reimbursed with public funds. This includes but is not limited to holiday parties.
- Hosting a group reception to honor all employees retiring from the district in a given school year is allowable as a public expense. Hosting a retirement reception provides a district benefit to the community as an opportunity for the community to attend and honor the retiring employees' years of dedication and service to the district.

School/Student Activity Banquets

- School/student activity banquets are typically a personal expense and will not be purchased or reimbursed with public funds unless the public purpose is submitted for review and pre-approved by the superintendent.

Memorial Gifts

- Memorial flowers to convey sympathy or congratulations are allowable as a public expense if they have been approved by the superintendent. Memorial cards are always appropriate.
- Memorial gifts of any sort other than flowers and a card are a personal expense.

Student Incentives

- It is within the discretion of the building principal to authorize the purchase of awards holding a nominal value to commemorate the achievements of a student or group of students. These awards should be designed to reward behavior and value that exemplify the educational and community mission of the district. Awards should not be gift cards or other monetary awards.
- Flowers and decorations for school dances held as part of the district's student activity program are an allowable expense paid out of the student activity fund, provided the purchases are approved by the building principal.

Meetings

- To the extent possible, meetings which span normal mealtimes should be avoided.
- Meetings of the district's board of directors and board committees are made up of individuals who volunteer a large amount of their personal time to serve the needs of the school community. These meetings are also scheduled at a time that's most convenient for the public, and often span normal meal hours. Food and refreshments purchased for board members is an acceptable use of public funds. The service of these unpaid volunteers directly benefits the entire school community. The superintendent has discretion to purchase/reimburse reasonable expenses for providing food and refreshment to these unpaid volunteers during these meetings.

Some expenditures will be considered personal expenses regardless of the context. These include purchase or reimbursement of alcohol, and personal items not included as retirement or memorial gifts listed above.

JESUP COMMUNITY SCHOOL DISTRICT

MEAL CHARGES

In accordance with state and federal law, the Jesup Community School District adopts the following policy to ensure school district employees, families, and students have a shared understanding of expectations regarding meal charges. The policy seeks to allow students to receive the nutrition they need to stay focused during the school day, prevent the overt identification of students with insufficient funds to pay for school meals, and maintain the financial integrity of the nonprofit school nutrition program.

Payment of Meals

Students have use of a meal account. When the balance reaches \$0.00 a student may charge no more than \$5.00 for a single account and \$10.00 for a family account. When an account reaches this limit, a student shall not be allowed to charge further meals or a la carte items until the negative account balance is paid. [Insert description for how families may add money to student accounts by cash, check, or online bank account.

Students who qualify for free meals shall never be denied a reimbursable meal, even if they have accrued a negative balance from previous purchases. Students with outstanding meal charge debt shall be allowed to purchase a meal if the student pays for the meal when it is received. The school district may provide an alternate meal that meets federal and state requirements to students who have charged the maximum allowance to the student account and cannot pay out of pocket for a meal.

Employees may use a charge account for meals, but may charge no more than \$5.00 to this account. When an account reaches this limit, an employee shall not be allowed to charge further meals or a la carte items until the negative account balance is paid.

Negative Account Balances

The school district will make reasonable efforts to notify families when meal account balances are low. Additionally, the school district will make reasonable efforts to collect unpaid meal charges classified as delinquent debt. The school district will coordinate communications with families to resolve the matter of unpaid charges. Families will be notified of an outstanding negative balance once the balance reaches \$10.00. Families will be notified by electronic and/or written notice. Negative balances of more than \$50.00, not paid prior to the end of the school year will be turned over to the superintendent or superintendent's designee for collection. Options may include: collection agencies, small claims court, or any other legal method permitted by law.

MEAL CHARGES

Communication of the Policy

The policy and supporting information regarding meal charges shall be provided in writing to:

- All households at or before the start of each school year;
- Students and families who transfer into the district, at time of transfer; and
- All staff responsible for enforcing any aspect of the policy.

Records of how and when the policy and supporting information was communicated to households and staff will be retained.

The superintendent may develop an administrative process to implement this policy.

NOTE: If the district elects to provide alternate meals for students, the alternate meal must contain components available to all students and be provided in the same manner as meals are provided to other students. Additionally, the district is expected to accommodate special dietary needs when a child's disability restricts their diet.

NOTE: The Iowa Department of Education has tools and resources available to help districts with the school nutrition program and meal charge policy implementation and review. Please visit the "[School Meals](#)" section of the Iowa Department of Education's website.

NOTE: School districts must follow appropriate debt collection practices when trying to recover unpaid meal charges.

RESPONSIBLE TECHNOLOGY USE & SOCIAL NETWORKING

Computers, electronic devices and other technology are powerful and valuable education and research tools and, as such, are an important part of the instructional program. In addition, the school district depends upon technology as an integral part of administering and managing the schools' resources, including the compilation of data and recordkeeping for personnel, students, finances, supplies and materials. This policy outlines the board's expectations in regard to these different aspects of the school district's technology resources. Students, staff, and volunteers must conduct themselves in a manner that does not disrupt the educational process and failure to do so may result in discipline, up to and including student discipline under all relevant district policies and discharge for employees.

General Provisions

The superintendent is responsible for designating a Technology Coordinator who will oversee the use of school district technology resources. The Technology Coordinator will prepare in-service programs for the training and development of school district staff and relevant volunteers in technology skills, appropriate use of district technology and for the incorporation of technology use in subject areas.

The superintendent, working with appropriate staff, shall establish regulations governing the use and security of the school district's technology resources. The school district will make every reasonable effort to maintain the security of the district networks and devices. All users of the school district's technology resources, including students, staff and volunteers, shall comply with this policy and regulation, as well as others impacting the use of school equipment and facilities. Failure to comply may result in disciplinary action, up to and including discharge, or expulsion as well as suspension and/or revocation of technology access privileges.

Usage of the school district's technology resources is a privilege, not a right, and that use entails responsibility. District-owned technology and district maintained Internet-based collaboration software, social media, and e-mail accounts are the property of the school district. Therefore, users of the school district's network must not expect, nor does the school district guarantee, privacy for use of the school district's network including web sites visited. The school district reserves the right to access and view any material stored on school district equipment, within district-owned software, or any material used in conjunction with the school district's network.

The superintendent, working with the appropriate staff, shall establish procedures governing management of technology records in order to exercise appropriate control over technology records, including financial, personnel and student information. The procedures will address at a minimum:

- passwords,
- system administration,
- separation of duties,
- remote access,
- data back-up (including archiving of e-mail),
- record retention, and
- disaster recovery plans.
